Mesmerizing view from the illuminated glass sculpture that will make your heart skip a beat

at Makuhari New City Illumination 2019/2020

From November 1, 2019 – January 26, 2020, 'Makuhari New City Illumination 2019/2020' a fantastical illumination display is for you to see and capture in photos. The display is available from 17:00-23:00 and are located at the north and south gate of Kaihimmakuhari station near MITSUI OUTLET PARK MAKUHARI, Chiba prefecture. A talented artist "MIRROR BOWLER" gave us an honor by designing this illumination through combining lights with glasses that reflects it into multiple colors; giving us the impression of a huge kaleidoscope.

Moreover, another illumination display is also held at MITSUI OUTLET PARK MUKUHARI. This year, the display is getting even better. You can mesmerize yourself with the starry sky that will brighten up the night. Or get yourself a fancy photo at the photo spot with wings like no other. The illumination is available from 16.00 – 22.00.

You can visit the two illuminations display by taking Keiyo JR train to Kaihimmakuhari station. And if you want to visit MITSUI OUTLET PARK MAKUHARI, exit the south gate and take a two-minute walk.
